

**Helsinki Citizens' Assembly** aims to contribute to the promotion of human rights as a set of common values respected by all segments of society, and to work towards the building of universal values of peace, democracy and human rights from the bottom-up. The purpose of the association is to support the principals of the process started with the Helsinki Final Contract that have been signed by 35 countries including Turkey and developed by the Paris Condition signed by the same countries at the end of the Paris Summit on the date of 21 November 1990 that are obligatory with the European Security and Co-operation Council (ESCC) Conference. More concretely, the objectives of the association are to promote the values of peace, human rights, ecology/human centred economy, democracy, rule of law at the bedrock of civic life, establishment of a common understanding of peaceful co-existence, and the development of civic approaches against conflicts.
